Q1-FY20 Operational and Financial Highlights

- The product portfolio enabled the company to achieve incremental sales volume of dyes in the export market whereas speciality dyes Intermediates in the domestic market, which was enhanced over the last two years.
- Kiri's ongoing expansions of multipurpose speciality intermediates facility is on track and the expansion projects are continuing in phased manner, certain speciality intermediates production lines would be commercially operational, and would add on to the product portfolio in the subsequent quarters of the current fiscal.
- As it has been conveyed earlier, for this and future expansions, the company remains focused on generating non-dilutive growth, with improving return on equity and free cash generation, for its shareholders.

Standalone

- Standalone Net Profit grew a healthy 18% sequentially to INR 25.92 Cr, despite higher depreciation relating to ongoing Capex.
- The company has strengthened its product mix improving margins with reduction in raw material prices by around 14% and tight control over operational expenses which were curtailed by around 1.3% in current quarter as compared to the preceding quarter.

Consolidated

- The economic slowdown has impacted the consolidated revenue growth which reduced by around 5% sequentially which is mainly on account of lower price realization on sale(s) but compensated by reduction in raw material cost and higher sales volume.
- On a consolidated basis, results were healthy with Profit Before Tax from continuing operations growing 37.7% Q-o-Q to INR 50.4 Cr and Profit After Tax growing by 49.4% sequentially to INR 39.28 Cr.

Q1-FY20 Operational and Financial Highlights

- It is very important to note that these margins and EBITDA improvements have come despite substantial continuing legal expenses relating to the ongoing litigation and subsequent proceedings at Singapore.
- The results of DyStar, while containing several disputed charges, are, in fact, no longer relevant for the company because as per the ruling of Honorable SICC (and further confirmed by the Singapore Supreme Court vide its order dated 29 May 2019, the value of Kiri's stake in DyStar, has been frozen as per fundamentals of DyStar existing on the effective date of July 3, 2018. Any subsequent changes in DyStar's financials, have absolutely no bearing whatsoever for the valuation of Kiri's stake in DyStar. Senda Group is now obligated, as per the Order of Honorable SICC, to buy out the Kiri's stake in DyStar as per the valuation based on DyStar financials on the effective date of July 3, 2018. The process to determine the valuation is currently on, and valuation reports are expected to be submitted by Kiri on or around current month. The SICC shall then determine the appropriate valuation of DyStar and the resultant valuation of Kiri's stake, at which Senda has to buyout Kiri's stake in DyStar
